AGENDA ITEM

PRESENTER

NOTES

-
- 1 1.Feedback from the operation around flying JKE
2. Discussion re. The previous strategy decision to fly only instructors until Committee decides that greater scope is advisable.
3. Rigging the K13, readying EGC for flying again. When?

 - 1 Feedback – comments from Wednesday 27th test flying were mainly positive with attention required to: Labelling of Milton, Fairy Liquid & water at the LP. Spraying of strop & attachment rings by ground crew member.
Social distancing found difficult at times & gathering of members in the club caravan not complying with rules.
A day referee to be appointed to observe and ensure all rules is implemented.

 - 2 Discussion re. The previous strategy decision to fly only instructors until Committee decides that greater scope is advisable.
It was established that there are only two instructors remaining to fly which could easily be accommodated with qualified solo members also flying, if aircraft are available.
After discussion and input from all committee present it was decided to now allow flying to all qualified members
All members requiring confirmation of their flying status/currency should contact Alex and have individual EBT (Evidence Based Training) to suit their circumstances.
This also applies to non-solo members if they are worried about their progress to flying in the future.

 - 3 Rigging the K13, readying EGC for flying again. When?
It was agreed that Sunday would be set for rigging the K13. However, if sufficient members arrive on Saturday then it may be possible to rig then.

AOB

Alex requires one of the following present when flying is taking place: Vince E, Dave H or Alex.

Confirmation:

Committee decisions should be abided by all the committee until the decision has been changed by the committee

Meeting closed by 9pm.
